SIGNALS AND WHAT TO DO WITH THEM

OBSERVABLE	WHAT TO DO WITH IT
$4 billion of it goes to new capabilities [14]	The AI budget exists; its next home is open.
Talyx: AI meeting prep for executives [16]	The outcome: executives arrive briefed.
Moynihan expects 2026 headcount to drop [3]	Urgency: manager hours matter.

MEETING APPROACH

WHAT THE RECORD SHOWS	YOUR MOVE
Appetite for detail: 20,000 managers [10]; 10% to 15% gains [5]	Headline, two proof points, a source on request.
Appetite for risk: AI "can go sideways" [15]; 18,000 coders use agents [11]	Pair the upside with the safeguard in the same sentence.
How they keep score: EPS up 34% [17]; 16% to 18% target [18]	One peer reference is useful; more is noise.

MEETING SCRIPT

Facts select the moves; read the room, never the record · Brian Moynihan, Bank of America · Prepared Oct 14, 2026

1. OPEN

- **Hook:** *You told investors all 213,000 people are getting AI access [2]. I would like to know what that looks like for the 20,000 managers [10].*
- **Credibility:** Talyx builds AI meeting-prep and knowledge tools for executive teams [16].
- **Insight:** Bank of America gave 18,000 developers coding agents, a 20% gain [11]; I found no equivalent named for managers [10].
- **Rule:** Keep the first minutes on his AI view; hold questions until he finishes.

2. QUESTION ORDER

- **Story:** What did Erica teach you about how Bank of America staff adopt AI tools [7]?
- **Process:** How does Bank of America choose which of its roughly 20 AI projects scale [8]?
- **Gate:** Who else weighs in before a new AI tool reaches Bank of America's 20,000 managers [10]?
- **History:** What did coding agents for 18,000 developers change about how Bank of America buys AI [11]?
- **Commitment:** If a 30-minute demo prepared one of your own meetings, who else should see it [12]?

3. OBJECTIONS: NAME IT, THEN ANSWER

- **"AI will hit senior people, not help them."** *You said it reaches senior people [12]; this gives executives time back, not fewer executives.*
- **"Headcount is falling."** *You expect it to drop in 2026 [3]; this adds capacity without hiring.*
- **"The coding-agent pilot came first."** *Yes, 18,000 developers [11]; managers are the next group.*

4. CLOSE

- **Restate:** ask what would make a second meeting an easy yes, then say it back in his words.
- **Real deadline:** the 2026 headcount drop he guided to [3] is judged at year-end; propose a date before it.
- **The ask:** 30 minutes with him or his named executive [20] · **Fallback:** an introduction to the owner of executive productivity tooling.
- **Follow-up:** send the one-page Barclays prep [19] within a day.

5. READ THE ROOM (WATCH, DO NOT ASSUME)

- **Fast, wants the answer:** give the outcome in one sentence, then stop [17].
- **Asks for terms and data:** bring the 10% to 15% efficiency range [5] and a source.
- **Talks about people:** tie it to the 20,000 managers [10].
- **Big picture, ideas:** frame it as reinvesting capacity [5].

6. IF IT STALLS

- **The move:** ask how the Erica rollout reached 24.6 million users [7].
- **The move:** ask what the Sept 14 Barclays remarks mean for next year's technology budget [19].

7. GUARDRAILS

- **Rule:** promise no results or savings figures; none are public for Talyx's tools in this record.
- **Never say:** "Does that make sense?" · "Is this helpful?" · "No pressure" · "You'd know better than me" · "Just checking in"

Next step: send the one-page Barclays prep by Oct 16, 2026 [19].
